- **Developer Tools** | Docker, Insomnia, GitLab, GitHub, Git, Agile Team, Code Quality, Jira, Postman, Debugging

RELEVANT PROJECTS

Full Stack Engineer | Python, Postgresql, FastAPI, React, Redux

US, a comprehensive Full Stack application designed to create relationships by using code patterns to send and receive likes, and allowing matches between users

- Created wireframes to visualize UI, used PostgreSQL to handle database backend features, and incorporated unit testing to ensure functionality
- Created user-friendly interfaces, integrating Redux hooks simplifying state effects, and Tailwind CSS for a customized feel

PROFESSIONAL EXPERIENCE

Verizon (Military Fellowship) | Full Stack Software Engineer

Jan '25 - Apr '25

- Collaborated with a team to migrate legacy frontend components to a new API, improving performance and maintainability.
- Completed user stories using Jira, including building dynamic pop-up overlays based on customer flags and redesigning alert systems to enhance user experience.
- Fixed filtering and search issues on product display pages, ensuring accurate and responsive results.
- Modified form layouts by resizing input fields and implementing real-time error validation for a smoother user experience.
- Self-taught Angular and TypeScript to successfully contribute to the codebase and complete tasks with minimal guidance.

Best Tire Center Tires To You | Lead Salesperson

Dec '19 - Jun '21

- Spearheaded sales initiatives as the top performer, consistently exceeding targets and prioritizing customer safety through comprehensive education on tire safety standards.
- Managed customer relations, mentored junior sales staff, boosted store ratings with exceptional service, and played a key role in company success.

US Army | Behavioral Health Technician

Jun '15 - Jan '19

- Supervised 50-100 department staff, implemented new procedures, & updated protocols to establish emergency care while overseeing the largest clinic on base
- Utilized feedback analysis & attendance tracking data to measure the effectiveness of triaging & group therapy with up to 30 patients
- Conducted mental health educational classes, and healthcare documentation using Microsoft Excel, Electronic Health Records, and Patient Management Systems
