System Design | Monoliths, Microservices, Domain-driven design, Message passing, Event sourcing

Back-End | Django 4, PostgreSQL, CI/CD

Front-End | DOM manipulation, React, Redux CSS

Developer Tools | Docker, Insomnia, GitLab, GitHub

RELEVANT PROJECTS

Full Stack Engineer | Us | Python, Postgresql, Javascript, React, Redux, Tailwind

2024

[US](#), a comprehensive full-stack application designed to create relationships by sending and receiving likes, and creating matches with other users

- Created wireframes to visualize UI, used PostgreSQL to handle database backend features, and incorporated unit testing to ensure functionality
- Created user-friendly interfaces, integrating Redux hooks simplifying state effects, and Tailwind CSS to give our project a customized feel

Full Stack Engineer | ConferenceGo | HTML, Python, PostgreSQL

2024

[CarCar](#), a comprehensive full-stack application designed to seamlessly handle inventory, sales, and services for car dealerships

- Implemented scheduling & coordination for car dealerships by implementing **RESTful APIs & backend features** within CarCar's service microservice, optimizing management of maintenance, technicians, & appointments
- Constructed user-friendly frontend interfaces with React, enriching experience for users, while ensuring seamless integration with the broader inventory and sales ecosystem.

PROFESSIONAL EXPERIENCE

Best Tire Center Tires To You | Lead Salesperson

2019- 2021

- Spearheaded sales initiatives as the top performer, consistently exceeding targets and prioritizing customer safety through comprehensive education on tire safety standards.
- Managed customer relations, mentored junior sales staff, boosted store ratings with exceptional service, and played a key role in company success.

US Army | Behavioral Health Technician

2015- 2019

- Supervised 50-100 department staff, **implemented new procedures, & updated protocols** to establish emergency care while overseeing the largest clinic on base
- **Utilized feedback analysis & attendance tracking data** to measure the effectiveness of triaging & group therapy with up to 30 patients
- Conducted mental health educational classes, and healthcare documentation using Microsoft Excel, Electronic Health Records, and Patient Management Systems
